DesignFarmBerlin
Design in Tech Accelerator

Call 2022

*Your design-in-tech idea and your product:
What have you designed, developed, and perhaps already prototyped?
Impact: What social, environmental or technological challenge are you addressing with this project?

Briefly outline your concept and the possible product/service that you would like to transfer into a business with the help of DesignFarm.

Application until
August 29th 2022

Questions and applications:
Birgit Effinger
info@designfarmberlin.de

name of project

person 1   person 2   person 3

name of mentor

1. Project description* max. 1000 characters

*Your business strategy:
How can this become a business idea? Or: how can this product become the start of your design-in-tech company?

2. Strategy* max. 700 characters

**You, your team, your network:
Who are you? With whom do you apply together? What different competences do you combine? Your network: with whom have you already collaborated for this
project and who supports your project?
This can be professors and supervisors at the university (mentors), research
institutes, industrial partners, craft enterprises or other experts
who contribute with their knowledge and experience to your project.

3. You, your team, your network** max. 700 characters
